# Prachi Joshi

Ujjain, Madhya Pradesh prachijoshi3052004@gmail.com 8085273703
prachi-joshi-302016318 prachi123-IT

## Summary

A motivated and dedicated engineering student specializing in Information Technology with a strong academic background, solid problem-solving skills, and a passion for software development. Seeking opportunities to contribute to innovative projects and grow in a technology-driven environment.

## Education

**Mahakal Institute of Technology, Ujjain** July 2022 – May 2026

- B.Tech in Information Technology
- CGPA: 8.02 / 10.0

**Stanford International School (CBSE)** April 2021 – March 2022

- Class XII (Math Stream) – Percentage: 70.2

**Stanford International School (CBSE)** April 2019 – March 2020

- Class X – Percentage: 72

## Achievements

- Solved 200+ problems on GeeksForGeeks across data structure and algorithms
- Elected as Class Representative (CR) for academic year 2024-2025
- Selected as Innovation Activity Coordinator by IIC, Ministry Of Education Initiative

## Projects

**Ujjain Yatra** GitHub Repository

- Developed a dynamic web application that provides information about temples, heritage sites, and local attractions in Ujjain.
- Features include tourist attraction details, route planning, user reviews, and responsive mobile design.
- Tools Used: HTML, CSS, JavaScript, PHP

**Screte Notebook Application** GitHub Repository

- Developed a full-stack notebook application using React for the frontend, Node.js and Express for the backend, and MongoDB for data storage.
- Implemented secure user authentication and CRUD operations to create, update, and delete notes.
- Designed a responsive and user-friendly interface, making the application accessible on both desktop and mobile devices.

## Internship

**Full Stack Web Development Intern-GNCPL** July 2025 – August 2025

Six-week internship emphasizing full stack development, team collabora-

tion, and Agile practices.(Certificate ID:100068)
Collaborated on a group project Global-connect

## Skills

**Languages:** C, C++, python, SQL, HTML, CSS, JavaScript, React

**Tools:** Vs code, Git, Github
